TW-1 Weigh Scale

Simple to operate, touch screen weigh scale
Collect data to optimise animal performance

Market leading touch screen technology

Full colour, outdoor readable touch screen. Large 7" screen, shows weight and gain information in an easy to read font.

Animal data analysis on device

Shows individual weight gain graphs, as well as weight distribution plots for all animals within a weighing session.

Ultimate user experience

Design of the scale and execution of common tasks have been rigorously tested to ensure the scale is easy to navigate and that we are able to deliver the most farmer friendly experience on the market.

On board help, 24/7 - The entire product manual is loaded into the product. No matter where you are, or what you are trying to do help is only one click away.

Animal notes and note alerts

Record notes against animals on the spot for later review. Notes alert the operator when the animal's tag is read.

Tough, rugged exterior - Farm ready design. Toughened, scratch proof glass screen makes it suitable for all environments.

Flexible mounting options

Easy to use sitting flat, or mounted to a vertical surface. The adjustable mounting bracket allows you to easily tailor the viewing angle for optimum visibility.

Flexible connectivity options

Whether connecting to drafters or readers via a serial cable, to a PC via USB or utilising the Bluetooth and WiFi wireless options, the TW-1 has every option available.

The complete package, ready to go - Just plug into your existing load bars and you have everything you need to start weighing:

- Tough and convenient Gallagher carry case
- Mounting bracket
- Micro-fibre screen cloth
- Battery charging cable
- Mains charging cable
- USB drive loaded with APS software
- USB cable for data transfer to PC

65 Scanlon Drive, Epping, VIC 3076, Australia
